

ZAID AHMED

SOFTWARE ENGINEER

+966539286225 | Al-Kobar, Saudi Arabia | Transferable IQAMA | professionalzaidahmed@gmail.com | <https://github.com/ZaidAhmed404> | <https://www.linkedin.com/in/zaid-ahmed-779b55211> | <https://zaid-ahmed-404.github.io/portfolio/>

Full-Stack Software Engineer specializing in **Flutter** and **Laravel**, with a focus on scalable architectures, RESTful APIs, and cloud deployments. Proven track record of delivering production-grade applications for international clients and optimizing system performance. Extensive experience with **AWS**, **Hostinger**, **CyberPanel**, and **cPanel**.

SKILLS

- ❖ **Frontend / Mobile:** Flutter, Dart, Bloc, Riverpod, GetX, Responsive Design, Clean Architecture, Firebase, UI/UX Integration, Flutter Web.
- ❖ **Tools:** GitHub, Bitbucket, Jira, Postman, Composer, Nginx, Linux Server Management
- ❖ **Backend:** Laravel 8+, PHP 8+, Eloquent ORM, RESTful API Development, OAuth2 / JWT, RBAC, Payment Gateways (Stripe, PayPal, MyFatoorah, Moyasar, Tamara), API Resources & Transformers
- ❖ **Cloud & DevOps:** AWS (RDS, S3, ECS, ECR, EC2, IAM, CodeBuild), Firebase (Firestore, Storage, Crashlytics), Docker, CI/CD Pipelines, cPanel, Hostinger, CyberPanel

EXPERIENCE/WORK HISTORY

Apr 2025 – Present

Software Engineer | [Agile Mind Solutions](#) | Al-Kobar, Saudi Arabia | Full-Time Onsite

- Architected and deployed high-performance **Flutter/Laravel** systems on AWS and cPanel, leveraging a deep suite of third-party packages including **Laravel Telescope**, **Laravel Audit**, and **Pusher** consistently achieving a **5% increase in system uptime**.
- Engineered localized backend solutions, including **ZATCA e-invoicing compliance**, regional payment gateways (**MyFatoorah**, **Moyasar**, **Tamara**), and **4Jawaly SMS services** to strictly align with regional regulatory standards.
- Spearheaded the implementation of robust **CI/CD pipelines**, increasing deployment frequency by **10%**, and streamlining engineering workflows.
- Utilized **Clean Architecture**, **MVC patterns**, and **Test-Driven Development (TDD)** practices to restructure complex codebases and ensure high code quality.

Apr 2024 – Feb 2025

Backend Engineer | [Riser](#) | Remote (London, United Kingdom) | Part-Time

- Maintain and scale **Laravel-based RESTful APIs** for a high-traffic video hiring platform supporting over 5,000 active users.
- **Optimize MySQL database** performance and manage production deployments via cPanel, ensuring a 5% improvement in data retrieval speed.
- Develop **AI-driven features leveraging Google Gemini AI** to enhance platform matchmaking and user experience.

Apr 2023 – Mar 2024

Software Engineer | [Meraki-IT](#) | Wah Cantt, Pakistan

- Developed and maintained systems for **7+ commercial projects** using **Flutter/Laravel**, integrating Firebase and NoSQL databases to enhance performance.
- Leveraged Laravel MVC architecture and Git-based workflows to deliver maintainable and scalable RESTful APIs.

- Collaborated closely with front-end teams to ensure smooth integration and delivery of features.

Apr 2022 – Nov 2022

[Backend Engineer](#) | [COMSATS University Islamabad](#) | Wah Cantt, Pakistan

- Designed and built a **conference management system** serving **5000+ users across 10+ countries**, managing registrations, paper submissions, and scheduling.
- Architected Laravel REST APIs with MySQL backends, focusing on scalability and modular structure.

EDUCATION

Dec 2022

Bachelor's in computer science, **majored in artificial intelligence** | [COMSATS University Islamabad](#), Pakistan

Projects

[Fatora Cloud](#) | SAAS

Developed a comprehensive cloud-based ERP and accounting platform optimized for SMEs featuring automated ZATCA-compliant electronic invoicing and real-time POS inventory synchronization.

[InfoHub - Real-time Task & Team Management](#) | SAAS

Created a real-time task and team management system utilizing a combined Flutter and Laravel framework architecture.

[Easy Fit - Conference Management System](#) | SAAS

Developed a scalable, web-based conference management system built with Laravel and deployed securely on AWS.

[DBMS based Healthcare Portal - Laravel + Flutter](#) | SAAS

Architected a secure patient and appointment management system using Laravel for the backend and Flutter for the front end.

[Sehat-Sakoon – Healthcare & Wellness Ecosystem](#) | SAAS

Deployed a comprehensive healthcare and wellness ecosystem built with Laravel and Flutter to streamline patient-resource connectivity.

[Speak & Translate All Language](#) | APP

Built a multilingual Flutter mobile application integrated with NLP that achieved **over 1 million downloads**.

[AI Image Background Changer](#) | APP

Built a responsive mobile application utilizing advanced precision-masking tools and high-performance asset delivery pipelines for instant backdrop generation.

[Miracle AI Art Generator Tool](#) | APP

Engineered with a high-performance generative art platform utilizing advanced prompt processing and external AI models to deliver seamless, on-device visual media handling.

[Riser App - Laravel + Google Gemini AI](#) | APP

Developed an AI-driven matchmaking platform leveraging Laravel and Google Gemini AI to enhance platform matchmaking and user experience.
